OFFICE 365 APP BUILDER PROFILE: CIRRUS SOFT LTD

CIRRUS SOFT LTD is a UK-based software consultancy that provides superior experience and expertise in software, web and cloud-related technologies. We work with our clients to build the most intuitive, powerful and scalable software solutions designed to maximize productivity and streamline business processes.

WHAT WE OFFER

We all know that to get the most from any technology, simplicity, ease of use and added value are the key ingredients. With the SharePoint ShortUrl and the SharePoint Document Merge Add-ins, this is delivered! Intuitive, powerful and scalable, our Add-ins are designed to maximize productivity.

SharePoint ShortUrl is a SharePoint Solution that enables the creation and use of shortcut hyperlinks with click tracking fully integrated within the SharePoint environment. Too often the structure of SharePoint content can lead to enormously long hyperlinks, which makes for ugly and error-prone hyperlinks – no longer with SharePoint ShortUrl!

SharePoint Document Merge is the simple, fast and clean way to merge SharePoint list data into predefined Word, Excel and PowerPoint document templates with no code! Users can also merge multiple Word documents into a single Word document. Automate document creation, save time and increase productivity!

Our SharePoint Add-ins are compatible with all versions of SharePoint and trusted by many of the top companies worldwide! Our SharePoint Add-ins are tightly integrated into SharePoint with access via Ribbon and Context Menus. They are very easy to install and very easy to use, so there is no training required.

WHAT OUR CUSTOMERS ARE SAYING
